

Traineeship (BCS) (B-UCLL-MBI31J)

18 ECTS  English  Second term  Cannot be taken as part of an examination contract

 Vets Tori (coordinator) | Boussauw Sebastiaan | Vets Tori

POC PBA Toegepaste informatica (Leuven)

Aims

DLR 5. The professional bachelor ACS acts in a deontological and socially responsible manner in accordance with business and organizational contexts, best practices and strategies from his own understanding and knowledge.

The student can describe the differences in corporate culture for an organization in which he operates and is able to adapt to it.

DLR 9. The professional bachelor ACS communicates at least in Dutch and English, orally and in writing adapted to the target audience.

The student can (professionally) cooperate in a professional context and expresses himself fluently in Dutch and/or English.

The student can write a motivation letter in Dutch and in English.

The student can report in writing on the progress of projects and/or internships.

DLR 11. The professional bachelor ACS is entrepreneurial, takes initiative and reacts to new developments and application domains.

The student can recognize challenges in an IT environment.

The student can independently take an action in an IT environment.

The student can use previously acquired knowledge and skills and critically evaluate them in context.

The student is able to function independently professionally in an IT business environment.

DLR 12. The professional undergraduate ACS supports change processes in the commissioning of IT solutions.

The student can document the commissioning of the IT solution.

The student can create a user manual.

The student participates in actions that avoid or mitigate any resistance when implementing a new IT solution.

MBI24J : Traineeship (sem 1 - BCS)

Is included in these courses of study

[PBA Applied Computer Science \(Leuven\)](#), 180 ects. 

Activities

18 ects. **Traineeship (BCS) (B-UCLL-MBI31j)** 

18 ECTS  English  Second term

 Boussauw Sebastiaan | Vets Tori

POC PBA Toegepaste informatica (Leuven)

Content

The student is assigned one or more (sub)projects and/or a set of tasks, which he will have to carry out during his stay at the internship-providing institution. These projects and tasks are at the level of the beginning Bachelor in applied computer science. They are carried out under the supervision and guidance of an employee of the institution providing the internship, who acts as a supervisor.

The student summarizes his activities and experiences during the internship period in a concise internship report.
